Logistics of the Multiplier Event

The Multiplier event for the PAL LAB project was held in person, at Transilvania University's Aula, organized by the team of CCREA Brasov, on September 11th, 2024, from 10am to 2pm. There was a total of 21 participants that joined, responding to an invitation from CCREA Brasov. The participants were teachers, educators, mentors, or advocates for Roma rights, experts in the area of research on early school leaving.

Feedback from the Multiplier Event

The meeting started with welcoming words and registration, as participants were required to sign the participants list. At the beginning of the Multiplier Event, members of the team of CCREA Brasov offered informations about the Erasmus+ project. Using the platform created in the project, we presented the Main Project Results such as the competency matrix for teachers and mediators working with Romani children and youth, the Interviews with teachers and mediators, development of the training modules and peer review, etc.

Also, the Modules developed as part of the Pedagogy Toolbox and the pallabeu website with the e-learning platform were presented.

After that we presented the e-learning platform and we focused on presenting what courses it contains. The speaker urged the participants to visit regularly and proceed with their registration in order to study the material included. The participants gave positive feedback and shared their admiration for the results of the project, and then discussed their Implementation, focusing mostly on the Training modules and the platform. Below is a timeline of all the topics discussed throughout the multiplier event:

- Introduction to the PAL LAB Project
- Analyses of the Main Project Results
- PR1: Competence Matrix for teachers and mediators working with Romani children and youth: State of the Art Review, Interviews with teachers and mediators, Synthesis Report, Inception Meetings, Competence Matrix.
- PR2: Pedagogy Toolbox for teachers and mediators: Manual of Implementation and templates, Development of Training Modules, Peer review and testing, Training of trainers in Sofia Bulgaria, Finalization of Toolbox.
- PAL LAB Platform: Browsing through the Pal Lab website, Entering the e-Learning Platform and creating accounts, Showcase Module 3.
